

6120 siamop

For even surface finishes in manual and portable machine sanding

For even surface finishes in manual and portable machine sanding

6120 sifleece can be used for dry and wet sanding and impresses due to its high conformability, consistent performance over the entire lifetime, low tendency to clog, and consistently high surface quality.

- ▶ Suitable for general use in dry and wet sanding applications
- ▶ Consistent finish without changing the workpiece geometry
- ▶ Perfect for fine sanding and finishing on stainless steel
- ▶ Choice between matte or bright surface finish
- ▶ Highly flexible and adaptable to contours
- ▶ For manual or portable machine sanding
- ▶ 3-dimensional grit penetration
- ▶ Alkali- and solvent-resistant
- ▶ Wide range of applications
- ▶ Extremely long lifetime
- ▶ High conformability
- ▶ Low clogging

Product profile

Grit type:	Aluminium oxide Silicon carbide
Grit range:	Coarse A; medium A; medium S; fine A; very fine A
Backing:	Nonwoven
Coating:	Mechanical
Bonding:	Resin over resin

Applications

- Structuring and finishing/satin finishing
- Removing discolouration
- Scuffing solid surface materials
- Removal of rust
- Fine sanding of surfaces
- Keying of wood, composite materials, paint, lacquers and primer filler
- Sanding off raised wooden fibres
- Keying surfaces for better paint adhesion

Materials

Unalloyed / low-alloy steel; Non-ferrous metal; High-alloy steels
Soft wood; Hard wood; Lacquer

Technology

siafast

Use
